1. IDENTIFICATION

ISP Finance Services Limited (the "Company") is incorporated in Jamaica under the Jamaican Companies Act (the Act).

On March 30, 2016, ISP Finance Services Limited became a public listed entity on the Jamaica Stock Exchange Junior Market. Consequently, the Company is entitled to full remission of income taxes for the first five (5) years and fifty percent (50%) remission for the following 5 years providing it complies with the requirements of the Jamaica Stock Exchange Junior Market.

The Company is domiciled in Jamaica, with its registered office at 17 Phoenix Avenue, Kingston 10. The principal activity of the Company is the granting of commercial loans and personal short term loans.

2. BASIS OF PREPARATION

The interim financial statements have been prepared in accordance with IAS 34, 'Interim financial reporting' and should be read in conjunction with the Company's audited financial statements for the year ended 31 December 2023 which have been prepared in accordance with International Financial Reporting Standards (IFRS) and the requirements of the Act. There have been no changes in accounting policies since the most recent audited accounts as at December 31, 2023.

The financial Statements have been prepared under the historical cost basis and are expressed in Jamaican dollars, un-less otherwise indicated.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Property, plant and equipment

All property, plant and equipment held for use in the production or supply of goods or services, or for administrative purposes, except for motor cars which are carried at fair value, are recorded at historical or deemed cost, less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

Valuations are performed frequently enough to ensure that the fair value of revalued motor cars does not significantly differ from its carrying amount. The increase of the carrying amount of a motor car as a result of revaluation is credited directly to equity (under the heading "revaluation surplus"). A revaluation decrease should be charged directly against any related revaluation surplus, with any excess being recognized as an expense in the statement of comprehensive income.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

a) Property, plant and equipment (Cont'd)

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of replacing part of an item of property, plant and equipment is recognized in the carrying amount of

the item if it is probable that the future economic benefits embodied in the part will flow to the Company and its cost can be reliably measured.

The cost of day-to-day servicing of property, plant and equipment is recognized in the statement of comprehensive income as incurred. With the exception of freehold land, on which no depreciation is provided, property, plant and equipment are depreciated on the straight-line basis over the estimated useful lives of such assets.

The rates of depreciation in use are:

Leasehold Improvements	20%
Furniture and Equipment	10%
Computer Software and Equipment	20%
Motor Cars	20%
Motor Bikes	20%

b) Loans and other receivables

Loans

Loans are carried at original contract amounts less provisions made for doubtful amounts and impairment, based on a review of all outstanding amounts at the end of the period.

Other receivables

Other receivables are carried at amortized cost less provisions for doubtful amounts and impairment losses.

Allowance for impairment losses on loan receivables

In determining amounts recorded for impairment of financial assets in the financial statements, management makes assumptions in determining the inputs to be used in the ECL measurement model, including incorporation of forward-looking information. Management also estimate the likely amount of cash flows recoverable on the financial assets in determining loss given default. The use of assumptions makes uncertainly inherent in such estimates.

Under the ECL model, the Company analyses its loan receivables in a matrix by days past due and determined for each age bracket an average rate of ECL. Subsequently, a further analysis is considered on the actual credit loss experienced over the last twelve (12) months and future delinquency is assessed, which is then applied to the balance of the loan receivables.

Bad debts are written off when identified.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Interest income is recognized on the accrual basis, by reference to the principal outstanding and the interest rate applicable. Interest income is calculated on the simple interest basis.
